“ James,  
Sincere condolences from Carol and me, now here in Hartford, Wisconsin. From stories you've told me over the years, I would have absolutely loved to have met Rosa, and share in some heartfelt belly laughs. What an absolutely fun-loving woman!  
Always please stay safe in your daily life; strong in your faith; in the game as you always have been; with max grooviness 'til we meet again someday.  
Very Sincerely,  
Tom Schwendtner

“ When I think of Rosa Pagan, I think of rows upon rows of wicker baskets, a massive metal playground with a giant mouse, pressed flowers and glue gun smells, Christmas trees and ribbons, fabric and pom pom balls.

All these things remind me of her in the ways she loved to be, forever crafting a dozen projects.

I believe the way we live on is through the connections and influences we make in the life we live. I will forever be grateful because through my grandmother, I have fun loving uncles, hardworking and hilarious cousins – and an absolutely wonderful father. My father who is kind, responsible and unconditionally giving.

These traits she passed down to her children, who then pass them down to her grandchildren.

We will carry her memory always.

Much love Grany. Miss you and love you.

“ I'll never forget the time I visited grandma in Florida, taking her to flower gardens and antique stores, she told me 'You should go to the beach and party with some girls!' She was always so much fun. She was always excited to be around family, a warm loving soul, she will be sorely missed.
