“ Well... I am 2 years late as I just learned of your passing yesterday.... I couldn't bring myself to say anything, frankly didn't know what to say.... I met you 15 years ago, Raina had just been born. I remember that day so vividly tho I think Zoey spoke more to me than you... from there our friendship grew, wed see a lot of each other. I was homeless, you let us stay on your floor... we got the house behind you, constantly walking thru the fence to go see each other... our water got turned off you let us use your shower... I spent many hours dancing to Dora and blues clues with Raina while you cooked and cleaned.... many bbqs, pool parties... i cried with you for granny and laughed with you for the good times.... hell we even moved to Florida right behind you... we had our ups and downs but I hope you know how much I appreciate all you have done for me. I have nothing but good memories and I'm trying to find old pictures. I'm sorry you're gone, I'm sorry we lost touch but please know I never forgot you... my deepest condolences to the family, I miss you all and I send love and light your way.
