“ My heart is broken right now I met miss Donna and Sherri years ago while we were both set up at a local vintage market over the years she would either sell me stuff or more often make me take it for free to resell I found out recently about her declining health and my wife and I were supposed to see her new years day to take her a vanilla shake when I called that day she sounded tired and we didn't want to tax her so we were supposed to see her on the 4th all I can say is that we will miss her very much and don't ever miss an opportunity to be with a friend or family member because you don't know when the last chance might be I'm so sorry Donna we didn't have one last vanilla shake together Donna & bill

“ I met Donna, who would later become my future sister-in-law, in 1978. What a sweet, loving and caring person! Over the years Donna always made me, and eventually my family, feel special and welcome to her home. A person of incredible patience and positivity, I considered her a role model of a loving Christian woman. Donna gave me a journal book back in 1997 that I still use for sporadic memories to this day. As Donna dealt with her health issues over the years and through life's many changes, we kept in touch. I had the opportunity to see her one last time this past summer for her son Brian's birthday celebration. What a blessing to have had Donna G. Johnson in my life!
