“ *It has been really hard to accept that physically, he is no longer here. I will always remember him for the good hearted person he was. When I think about him, I can still see his smile and still hear his laugh and still hear his voice. I'll never forget our nerdy conversations about our gadgets and new phones and stuff. He would go on and on about something he discovered and wanted to share it with me. Little did he know, I had discovered those things way before he tried to tell me about them. But I never told him that because he seemed so excited to explain and try to teach me what he found out how to do. If i could say one last thing to my uncle Joe, I would say, "Thank you. Thank you for the times you have helped me, for the times you gave me advice, and for the times that you just kept me company. Thank you for all of the memories that I have with you. I love you Tio. I'll see you when I get there. R.I.P."*

“ My brother Joe who I'm proud to say blood till the end. My brother was smart very wise and had a heart like no other. He was always around when you needed him and he asked for very little. We knew he was aware that the end was near from how he held Mom, Moe, Millie, Robert and Me from the way he held us and smiled we knew that he was aware that we were with him, I recall when Robert and I first got there we spoke to him he turn around and looked at us and said o boy that's right we gonna mess with you here wanted to punch us on the nose then he smiles thank you Joe for all the memories. You will forever be in our hearts. Thanks we love you dearly " VIP" "RIP" RAY
