“ In all my life i never thought id ever hear your voice, see your face or hold you in my arms, but somehow dad we were meant to be together even if it was only for your last few years.. i remember one specific phone call the one where i thanked you for saving my life, you responded with "No Amanda, You saved mine." If I could turn back time I would've found you sooner but I'm glad I found you when I did. And all those 4 am phone calls from rori to you. I'll miss you but this is not goodbye. Til we meet again Dad, love your baby girl and grandchildren #StravinoStrong
