“ Sissy,  
*Well my life has always been filled with amazing memories with you in them you are my sister my best friend my everything. We have had the most wonderful and awesome moments and of course we have had our bad ones but life without you is one of the most unbearable feelings i have ever had to endure. I want to thank you for always being there by my side through my entire life you were the most incredible sister anyone in the world would wish for and yet you were all mine. I miss you so much all i seem to do is think about you and think you are going to open the front door and give me a kiss on my forehead and then tell me to cow girl up and quit crying. Sissy i miss you so much and it hurts so bad not to be able to hear you laugh and see your pretty smile but that image is forever burned into my soul cause i know you are so healthy and in no pain now so you are in a constant smile mode now huh!!!!!!!!!! well my angel in the sky flying so high and having a wonderful time hopefully you can fly low sometimes and check in on me from time to time I love you sissy and until we meet again i love you too the moon and back!!!!!!!!!!!!!!*

*love always and forever your baby sister*
