“ Hey grandma sorry it took a while I didn't really know what to write I wish I wasn't a pain when I was little towards you then we would of gotten to know each other better but I hope you are resting in peace up there. Your daughter Natalie misses you very much and loves you no matter where you are up there she just wants you to be in peace and resting comfortable up there.

“Titi, you were one of a kind. My memories of you are always full of laughter. You were always fun loving with me...some of my funniest memories were watching you point to someone with your “trompa” when you were trying to point something out! I will miss your sense of humor & funny laugh. Your spirit is finally free of the weight and limitations of the body! Rest in paradise ... until we meet again Titi! We love you tons!

“Grandma, you’re free from worldly confinement and restraints. As free as a bird and as free as the summer breeze. You can run, sing, dance, talk, and be you again. You get to live the way your soul lived here on this Earth. You get to move on and be happy. You will be missed on Earth but we will be reunited one day. Blessed be, Grandma. Thank you for inspiring my free spirit. Love you.

“ Mom was a free spirit. Couldn't stay put in one place for too long. She loved her kids and grand kids, she did the best she could to be there when needed. I know she's in heaven dancing and singing "you are my sunshine" which she sung to her grand kids and we then sang to her while in nursing home. Safe travels mom... you are able to go where ever you please - when you please!! By the way... compi is there with you now, so he can play his congas and you can dance... have fun!
Love you, Malena
